COVID-19 & Mental Health: Providing In-Person & Remote Services To Students In Distress
Tuesday, August 25 ~ 3:00-4:00pm (Eastern)
Once the live date has passed, this training will be available on demand.

Overview

As the fall semester approaches, higher education administrators need to be prepared to respond to the increase in student support services given the stressors and concerns surrounding COVID-19. The COVID-19 pandemic has amplified existing challenges that institutions face in supporting students in distress and has also created new, unique problems in how institutions can practice care and concern for their students. There has been a significant rise in mental health concerns nationwide, including anxiety and depression. Institutions must, therefore, create clear strategies for outreach and response and be prepared with resources, both on-campus and off-campus, to support students in need.

This webinar will explore current challenges both students and institutions are facing as well as best practice considerations concerning both in-person and remote support services.

Objectives:
- Understand the fundamentals and scope of supporting students during a pandemic
- Explore unique COVID-19 related stressors and difficulties
- Learn most common mental health issues facing students entering the fall semester
- Learn strategies for supporting students in distress both in-person and remotely
- How to perform a non-clinical risk assessment for students in distress
- Learn specific case management techniques for anxiety and pandemic-related concerns

Who Should Attend?

- Administration
- Student Services/Affairs
- Academic Advising
